05) Read the short text and answer the questions.

"A digital detox refers to a state when an individual quits or suspends use of digital equipment and devices to utilize that time for social interactions and activities. These devices generally include portable handheld devices such as smart-phones and tablets as well as computers, laptops and even televisions. It is a technique that enables an individual to relieve stress and anxiety incurred from being over occupied by a high utilization of digital devices".

https://www.techopedia.com/definition/15418/digital-detox
